

NEW FRONTIERS OF PUBLIC SECURITY

thanks to LCU's research projects

MIDAS • WITNESS (NATO funded)

STEPWISE • ECHO (EU funded)

25 MARCH 2020, h 9:00 a.m.

**Università degli Studi Link Campus University
Via del Casale di San Pio V, 44 - Rome**

Link Campus University explores the latest frontiers of technology in the field of public security.

Drones, sensors and IT operations help us today to improve the State capacities of surveillance and defense in order to prevent and face the main threats to individual and collective rights and freedoms (terrorism, activism, international and industrial espionage, crime).

Link Campus University presents its research projects (funded by NATO and European Union) to the main stakeholders of the public force, industry and humanitarian assistance.

h. 9.00

Arrival and accreditation

h. 9.45
